

# American Militarism on the Small Screen

## A Critical Examination

American Militarism on the Small Screen is a groundbreaking study of the portrayal of the US military in television shows. This book provides a comprehensive analysis of the ways in which television has shaped public perceptions of the military, and how these representations have evolved over time. The book also explores the ways in which television has been used to promote and justify US military interventions, and the impact this has had on public opinion and policy.

The book is divided into three parts. The first part provides a historical overview of the portrayal of the military on television, from the early days of the medium to the present day. The second part examines the ways in which television has been used to promote and justify US military interventions, focusing on the Vietnam War, the Gulf War, and the War on Terror. The third part explores the ways in which television has been used to critique and resist American militarism, focusing on shows such as M\*A\*S\*H, The West Wing, and Iraq in Fragments.
