On January 11, 1973, DJ Kool Herc threw a party at 1520 Sedgwick Avenue in the Bronx, New York City. This party is widely considered to be the birth of hip hop music. Herc was a Jamaican immigrant who had brought his sound system to the Bronx. He began experimenting with playing two copies of the same record, back and forth, creating a new sound that he called "breakbeats." Herc's parties quickly became popular, and other DJs began to adopt his style. By the mid-1970s, hip hop had become a major force in the Bronx, and it soon spread to other cities around the world.

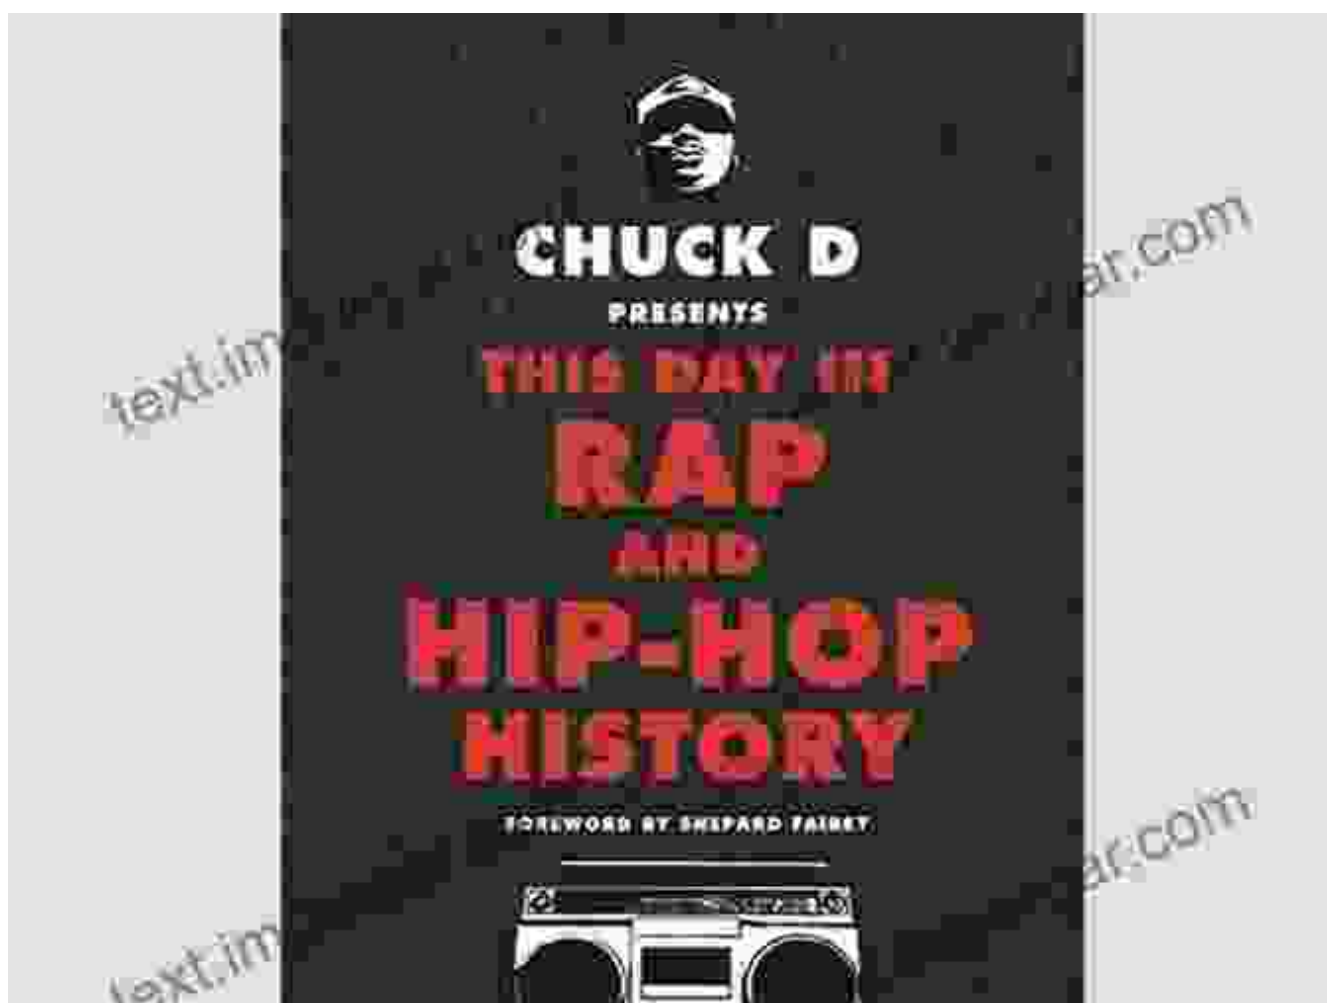

The impact of hip hop on society has been profound. Hip hop has helped to break down racial and economic barriers, and it has given a voice to the voiceless. Hip hop has also been a major force in the development of popular culture. Hip hop music, dance, and fashion have all had a major impact on mainstream culture, and hip hop artists have become some of the most popular and influential celebrities in the world.
