

Tanks of Hitler's Eastern Allies 1941–45: New Vanguard 199

This book examines the armored forces fielded by Germany's allies in Eastern Europe during World War II, from the Balkans to the Baltic and from Finland to Romania.

These forces played a significant role in the German war effort, and their tanks were often used to spearhead German offensives. However, they were also often poorly equipped and trained, and they suffered heavy losses.
