Illuminate Education

Comprehensive Assessment Systems

A Comprehensive Assessment System is a system of assessment tools that provides the capacity of the system to be in the right place to provide the right information for a student's needs.

ASSESSMENT TYPES

- Formative Assessment**: Used to monitor student learning and provide ongoing feedback to improve performance during the learning process.
 - Examples: Exit tickets, quizzes, class discussions, peer reviews, self-reflection.
- Summative Assessment**: Used to evaluate student learning at the end of an instructional unit by comparing performance against a standard or benchmark.
 - Examples: End-of-year tests, final projects, standardized tests.
- Diagnostic Assessment**: Used to identify students' strengths and weaknesses at the beginning of an instructional unit or course.
 - Examples: Pre-tests, placement tests, diagnostic tests.
- Interim Assessment**: Used to monitor student learning and provide feedback during the instructional process.
 - Examples: Progress monitoring, benchmark assessments, interim tests.
- Portfolio Assessment**: Used to evaluate student learning over time by collecting and showcasing student work.
 - Examples: Student portfolios, project portfolios, e-portfolios.
- Performance Assessment**: Used to evaluate student learning by measuring their ability to apply knowledge and skills in a real-world context.
 - Examples: Role plays, simulations, presentations, projects.
